I hope you enjoyed the courses. It was nice to have an up to date map, though there is on-going work in the woods so some minor changes are already needed. The map is quite bitty/detailed so I printed it at 1:7500 and kept the legs on the technical courses short so that you had the opportunity for some precise navigation. If you ran the Green and thought the run to controls 1 and 2 was a bit of a dog-leg, I did have in mind when planning that an alternative option to control 1 was along the grass verge at the edge of the road and then into the forest near the control, but I don't think anyone chose that option. So much for that idea! :)
